

DRAFTED MEN REPORTED TUESDAY

First Two Norwich Men Will Leave This Morning for Camp Devens, Ayer, Mass., Five Per Cent. of Local Quota Are Now Actually Under Military Orders.

The six men who will leave Norwich this week for Camp Devens, Ayer, Mass., as the first 5 per cent. of the local quota of 120 men reported for military duty to the local board in the Thayer building on Tuesday morning and received their instructions. Two of the men, Walter P. Moran, son of Mr. and Mrs. John A. Moran, and Hunter Adams will be the first to leave Norwich. They will take the 9:05 o'clock train this (Wednesday) morning and will arrive at Camp Devens about 3 o'clock this afternoon. One man will leave Thursday morning, one Friday and the last two of the five per cent. will leave on Saturday. On Tuesday morning the six men were given an automobile ride about the city by Irving Bogue.

After communicating with District board No. 2 at Waterbury, the New London exemption board has made a decision on the first six men whom they will send into the national army. Three of these are from New London and one each from Mystic, Waterbury and Groton. They are men from a group who showed a special desire to go with the first quota and consequently were the first to be given consideration. Two will leave today and one on each of the following four days.

WILL START FRIDAY TO COLLECT PAPER

Money Realized From Sale Will Go To Red Cross

Beginning Friday the National League will start collecting waste paper again. From now on this will be done every two weeks. It is hoped that this first collection which should include the sale of old newspapers, will be a very large one as the money realized from the sale of the paper will be given over to the Red Cross.

When the League rooms are open people come in who are willing to do their part and knit the much needed articles for the soldiers and sailors, but who do not feel that they can afford to buy wool for more than one piece. The generous contribution of newspapers and magazines given to the collectors on Friday will aid in providing wool for these people. The sets which are being sent out include sweaters, mufflers, helmets, waistcoats and stockings. After September 4 the League rooms in the Thayer building will be open from 10 to 12 and from 1 to 5 every week day except Saturday.

The wool for the articles for the Army and Navy sets with the directions how to make them may be obtained there.

DISTRICT OF COLUMBIA HONORED SELECTED MEN.

26,000 Men, Women and Children Passed Reviewing Stand at White House.

Washington, Sept. 4.—The president and congress of the United States and the allied nations, through their diplomatic representatives, joined today in paying honor to the men selected from the District of Columbia for service in America's national army, raised for the battle of democracy.

Washington, long used to glittering processions, to the bare and noise of inaugurations, opened its eyes and cheered itself hoarse at the spectacle. For two hours while in other parts throughout the nation other thousands moved over the first part of the long road that may lead to French battlefields, Pennsylvania avenue heard the tramp of marching men, the jingle of spurs and the rumble of artillery.

About 26,000 men, women and children passed a reviewing stand before the White House, where the president and his guests watched the parade. More than half of the long line was in uniform. There were regulars from infantry, cavalry and artillery regiments stationed near by, marines, men from the officers' training camp at Fort Myer and hundreds of army and navy officers attached to the departments here.

President, Marched at Head of Line. President Wilson himself, eyes to the front, stepping out like a freshly trained recruit, marched at the head

Save Money Now On Hudson Super-Six ON EXHIBIT AT FAIR GROUNDS

Price has always been a fairly accurate index of quality. But just now, because of the headlong rising of material costs, price is not a true indication of value. Fifty-one cars have been forced to advance prices 20 to 25 per cent.

The present supply of Hudson Super-Sixes is built from materials contracted last year. Since then material costs have almost doubled. When that supply of materials is exhausted, then Hudsons, too, must cost more. By prompt buying you can save the difference between what a Hudson Super-Six now costs and what it must certainly have to cost when its price

is influenced by the present material market.

When former cheaper cars could be bought at \$200 to \$300 less than the Super-Six, no two of them had sales equal to those of the Hudson. That shows how popular the Super-Six has always been as compared to other cars. It is easy to imagine how much more popular it will be now that there is no such price advantage. The Hudson Super-Six has made itself the wanted car as compared with others.

It is the largest selling fine car. Almost 40,000 daily are in use. It has established itself as the lifetime car.
